## Fullstack Developer

Samarinda, Indonesia • 082217160075 • Andypratama@gmail.com • linkedin.com/in/andypratama3

I am Andy Pratama, a student at Politeknik Pertanian Negeri Samarinda majoring in Information Engineering/Software Engineering. I specialize in full-stack development, using programming languages such as PHP, JavaScript, and CSS, with expertise in the Laravel and CodeIgniter frameworks, I actively participate in web development and have successfully created various websites during my Fullstack Developer studies. I am a diligent programmer committed to completing projects on time, and I quickly grasp concepts when communicated effectively.

## WORK EXPERIENCE

---

### Fullstack Developer

10 Juli – 24 Agustus 2023

Koetai Mahkota Soundline, Samarinda

Built a Koetai Mahkota Soundline website using the Laravel framework with Midtrans Payment Gateway integration for ticket purchases.

Tools: Html, Css, PHP, Mysql ,Javascript, JQuery, Clean Code, Laravel, Midtrans Payment.

- Created events with featured talents and specified dates displayed in the news section.
- Automated ticket purchases that change payment status upon completion.
- Optimasi code dengan menggunakan metode cleancode yang mempermudah untuk membaca sebuah source code.
- Admin dashboard allowing ticket purchase data export in Excel format.

### Fullstack Developer

20 Agustus – 5 Oktober 2023

Database Relawan Mhf, Samarinda

Database Relawan Mhf is a website storing data from supporter volunteers of candidates with a color-coded system to facilitate data collection from each volunteer inputting data.

Tools: Html, Css, PHP, Mysql ,Javascript, JQuery, Clean Code, Laravel.

- Implemented data input using select2 method to facilitate searching for Districts, Sub-districts, and Polling Stations.
- Data export in PDF and Excel formats with printed relationships.
- Chart displaying data based on districts.
- Realcount feature showing vote calculations in chart form grouped by district. If a Polling Station is already in the database during input, it won't appear in the dropdown options.
